—

- HTML 5
- CSS 3
- JavaScript
- SASS
- Bootstrap
- Git
- GitHub
- React (Learning)

—

Languages

—

- Spanish (native).
- English.

About me

My name is Nelson Rojas, I'm outgoing, kind, empathetic, and persevering.
In 2021 May, I started to study web development for myself in a disciplined form, where I set up a roadmap focusing on the front-end side, in which I'm still getting progress every day, studying and practicing all learnt through different kinds of projects.

Experience

Bootstrap Website, HTML, CSS & Bootstrap 5. 🔗

Bootstrap website was created to learn and practice Bootstrap 5.

NFT Card, HTML, CSS & SASS. 🔗

This NFT Card was a challenge from frontendmentor.io to practice with SASS.

Budget App, HTML, CSS & JavaScript. 🔗

Budget App is an application web which calculates your deposits and expenses.
In this project I worked with OOP (Object Oriented Programming).

Arcane Survey Form, HTML & CSS. 🔗

This project was created to gather information about what spectators think about the most popular video games series.

More than 20 repositories on GitHub. 🔗

Education

- **freeCodeCamp,** JavaScript Algorithms and Data Structures. 🔗
- **freeCodeCamp,** Responsive Web Design. 🔗
- **Udemy,** Front-End Web Developer course. 🔗
- **Udemy,** CSS course. 🔗
- **Udemy,** HTML course. 🔗
- Educación Secundaria Obligatoria (E.S.O).

Interests

After I finish studying React I would like to keep learning further on the Front-End side.
